

New top-level domains map

NOMINET

This shows the Top 250 new generic top-level domains (gTLDs) as at the 11th July 2016 with some selected brands taken from the Top 1000 list on nTLDStats.com plus .blog. Until recently, there was a limited set of domain name endings that could be registered. ICANN invited applications for new gTLDs in 2012 to increase the choice and 1,157 have been commissioned to date.
