

NOMINET

OUR PLAN

We're on the right course

We have a solid plan that keeps Nominet stable, looking forward, and working with members along the way.

SCALING OUR COMMITMENT TO PUBLIC BENEFIT

We will have committed £4 million by June, double the amount of last year. In future years we will devote 10% of revenues to public benefit and have set aside £25m of our reserves.

LAUNCHING A REGISTRY ADVISORY COUNCIL (RAC)

The RAC will give members a greater voice in shaping key decisions - including future .UK pricing and policy. Our plans will ensure all member groups and sizes are represented.

FREEZING .UK PRICES FOR AT LEAST THE NEXT TWO YEARS

Recognising the difficult economic climate for many businesses, we will implement a price freeze until 2023 at the earliest.

IMPROVING MEMBERSHIP ENGAGEMENT

We are launching a new Member Hub and well-governed, next-generation member forum.

FREEZING BOARD REMUNERATION

We will freeze board-level pay through the end of 2022.

INCREASING FINANCIAL TRANSPARENCY

We will give greater clarity about the investment in, and performance of, the Cyber Business unit.

£20M

INVESTING IN .UK INFRASTRUCTURE

We are investing £20 million over the next three years in our next generation registry infrastructure.
